

## Eliana Roberts

2018-2019 *Vice President*

California State University, Sacramento

Graduation: May 2019

Hello Student Nurses!

It is such an honor to be serving on CNSA's 2018-2019 Board of Directors, and I am looking forward to an amazing year for our organization! I am a BSN student from California State University, Sacramento in my final year of nursing school. Involved with CSUS CNSA at the local level from my very first semester, I have served as Class Representative during my first year and would go on to serve as chapter Vice President and now President in my second and final year. This background in leadership and involvement within CNSA prompted me to run for the position of Vice President at CNSA's 2018 Convention. The role of the student nurse is filled with learning and change, and I am passionate about advocating for student needs during this transformational process. I am eternally grateful for the chance to do this at the State level over the course of my term as Vice President.

While I have many personal goals for my term, the goals listed below most important to me and our Board of Director's vision for strengthening CNSA. I will not be able to do it alone and look forward to your input and support over the next year!

- Promote communication amongst CNSA chapters by increasing local chapters' use of legacy emails.
- Facilitate monthly meetings between chapter leaders and state leaders to help strengthen the knowledge, goals, and impact of the CNSA leadership at all levels throughout California.
- Clarify our CNSA Bylaws through a comprehensive Bylaw review to ensure the foundation and workings of CNSA are clearly and comprehensively available to our membership.
