

Caeli Matanky

Community Health Director

Pronouns: She/Her/Hers

Hi all, I'm so excited to be your Community Health Director for this coming year! I am currently a senior in the Sonoma State University Nursing program where I served a one year term as president of our school's CNSA chapter. I'm originally from the Los Angeles area but moved to Sonoma County for college after falling in love with the beautiful scenery of Northern California. I aspire to become a family nurse practitioner in a community health setting so community health is something that has always been near and dear to me heart. I am a theater geek, American Sign Language enthusiast and proud LGBTQ+ community member and advocate. I work as a Lead Peer Tutor at the Sonoma State University Learning and Academic Resource Center and volunteer at our local community health center. I am incredibly passionate about the profession of nursing and about CNSA which is an incredible organization that provides such amazing leadership and development opportunities for nursing students. Here's to a great year!
